

Automatic Gate Solutions by Ultra

## Revolution™ Automatic Gate with Hide® Concealed Operator

Ultra Aluminum has partnered with BFT-USA, a recognized leader in electromechanical and hydraulic gate operators, to introduce Ultra Access Controls, with several new models of swing and slide automatic gate operators and accessories. The Revolution™ Automatic Gate utilizes our exclusive Hide® motor concealed in the upright and attached to the gate through a unique one-piece extrusion. Through simple rotational motion, it delivers powerful and reliable performance, yet it's virtually invisible.

Ultra Access Control's Revolution™ Automatic Gate with Hide® Concealed Operator offers state-of-the-art efficiency and optimum performance.

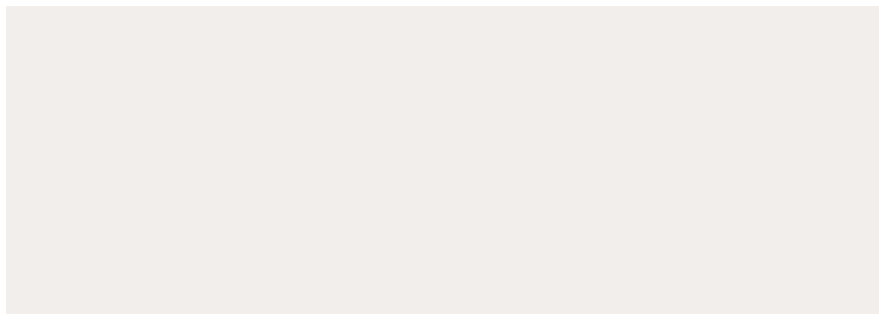

<b>Control Board</b>	Libra CB Hide
<b>Solar Board</b>	Ecosol Libra CB Hide
<b>Motor</b>	Cylindrical Gear Driven
<b>Motor Reduction</b>	5 Stage Planetary Gear
<b>Power Supply</b>	24V
